Professional Summary

First-year B.S. Computer Science & Data Analytics student at IIT Patna with a strong foundation in Python, Data Analytics, Artificial Intelligence, Cloud Computing, and Web Development. Experienced in building AI-powered web applications, business intelligence dashboards, and data-driven solutions to solve real-world problems. Seeking internship opportunities in AI, Data Science, Machine Learning, Software Development, and Cloud Computing.

Education

Indian Institute of Technology Patna

2025 – 2029

Bachelor of Science, Computer Science & Data Analytics – CPI: 8.97/10

Relevant Coursework: Programming and Data Structures, Foundation of Computer Science, Foundation of Data Analytics, Numerical Methods for Data Science, Mathematics, Capstone Project I

Technical Skills

- **Programming Languages:** Python, SQL, HTML, CSS
- **Data Analysis & Visualization:** Power BI, Microsoft Excel, Tableau, Pandas, NumPy, Matplotlib, Power Query, DAX, Data Cleaning, Data Visualization, Exploratory Data Analysis (EDA)
- **Artificial Intelligence:** Google Gemini API, OpenAI API, Prompt Engineering, AI Chatbot Integration, Recommendation Systems, Predictive Analytics
- **Cloud Computing:** AWS, Cloud Computing Fundamentals, Firebase Authentication, Firebase Admin SDK, Render Deployment
- **Web Development:** Flask, REST APIs, Responsive Web Design
- **Databases:** PostgreSQL, CSV Processing
- **Developer Tools:** Git, GitHub, VS Code, Google Colab, Jupyter Notebook

Featured Projects

Health IQ | AI-Powered Health Insurance Comparison Platform

Live Demo

Python, Flask, Firebase Auth, Firebase Admin SDK, Google Gemini API, HTML, CSS, JavaScript, Render

- Developed an AI-powered platform comparing more than 1,100 health insurance plans for end users.
- Implemented secure Firebase Authentication (Email/Password and Google Sign-In) with server-side token verification.
- Built an AI Insurance Advisor powered by Google Gemini, along with Premium Prediction and Claim Approval Prediction modules.
- Designed an analytics dashboard, hospital finder, and PDF export feature; deployed the full application on Render.

CIVI-X | AI Smart City Civic Issue Reporting Platform

Frontend | Backend

Next.js, React, TypeScript, Node.js, Express.js, PostgreSQL, Prisma, Google Maps API, Gemini Vision, OpenAI GPT-4o, Cloudinary

- Built a full-stack civic issue reporting platform with dedicated Citizen, Officer, and Admin portals for smart city management.
- Engineered AI-based issue classification and complaint prioritization using Gemini Vision and OpenAI GPT-4o.
- Integrated secure authentication and Google Maps API for real-time issue tracking and geolocation.
- Designed scalable backend APIs and a relational database architecture using PostgreSQL and Prisma.

KFC Nutrition Dashboard

Power BI, Excel, Power Query, DAX

- Built an interactive Power BI dashboard analyzing KFC nutritional data with KPI cards, dynamic filters, and Top-10 visualizations.
- Performed end-to-end data cleaning and transformation, delivering actionable business insight reports.

Deloitte Australia Data Analytics Job Simulation | Forage

Excel, Tableau

- Analyzed manufacturing telemetry datasets and built interactive Tableau dashboards for business decision-making.
- Used Excel to classify equality scores, translating raw data into actionable business recommendations.

Netflix Data Visualization & Exploratory Data Analysis

Python, Pandas, Matplotlib

- Cleaned and analyzed Netflix datasets, performing exploratory data analysis to uncover key trends.
- Built visualizations identifying trends across genres, countries, and release years.

Internship Experience

Cloud Computing Intern (AWS)

June 2026 – August 2026

Skill Nexus

- Learning AWS cloud services including compute, storage, networking, IAM, and security.
- Working on deployment and cloud infrastructure assignments, building hands-on knowledge of cloud architecture and best deployment practices.

Certifications

- **Google AI Essentials** – Google / Coursera: AI fundamentals, responsible AI, prompt engineering, and AI productivity workflows.
- **Google Prompting Essentials** – Google / Coursera: advanced prompt engineering for AI-assisted data analysis and automation.
- **Cloud Computing Internship (AWS)** – Skill Nexus: hands-on training in AWS services, deployment, networking, and cloud infrastructure.
- **Deloitte Australia Data Analytics Virtual Experience** – Forage: Tableau dashboards and Excel-based business analytics.
- **Aspire Leaders Program** – Aspire Institute: 40-hour global leadership program on communication and collaborative problem solving.
